Weekly Report #25

7. C/TEB and [] SSA/DDS, met on Friday. [] with the concurrence of the DDP Training Officer, has requested that training evaluations for Support designees in the DDP be disseminated through the parent career management office (DDS training offices) rather than through the DDP staff training officers. This does not create any insurmountable problems as far as dissemination is concerned, and the change will be implemented on signal from Mr. []
